PREA COMPLIANCE AUDIT INSTRUMENT – INTERVIEW GUIDE FOR SPECIALIZED STAFF

Community Confinement Facilities
August 11, 2014
GUIDELINES FOR AUDITORS: SPECIALIZED STAFF INTERVIEWS

Selecting specialized staff for interview:
Per the instructions for random staff interviews, the auditor shall request a list of staff sorted by assignment (e.g., supervision in housing units) and by shift on the first day of the site visit. The auditor shall select, at random (if practical), staff from the list of specialized staff below and request that these persons be brought for an interview on a subsequent day to be determined.

The auditor will request to interview specialized staff, including:
• Agency contract administrator;
• Medical and mental health staff;
• Administrative (human resources) staff;
• SAFE and SANE staff;
• Volunteers and contractors who have contact with residents;
• Investigative staff;
• Staff who perform screening for risk of victimization and abusiveness;
• Staff on the incident review team;
• Designated staff member charged with monitoring retaliation;
• First responders, both security and non-security staff; and
• Intake staff.

This list of specialized staff, and the following interview guides, are meant to provide auditors with guidance on the types of staff who should be interviewed and the types of questions they should be asked. However, it may be that some staff roles overlap and that auditors only need to talk to one or two people to answer some of these questions. Likewise, auditors may need to interview several staff who have different responsibilities to answer questions for a single role designated above. Additionally, agencies/facilities may use different titles to refer to their staff than the nomenclature used in this guide. As part of auditors' preparation for an audit, auditors should talk with their agency/facility contact(s) to get an understanding of the staff they will need to talk to answer the various types of questions.

Interviews shall be conducted in a setting where staff will feel free to talk without being overheard by other staff. At large facilities or those with many different housing units, auditors may choose to interview additional staff to develop a more comprehensive assessment. The decision regarding total number staff to be interviewed should take into consideration the time available for interviews with both residents and staff during the visit.

Informing Staff of the Audit’s Purpose and Reason for Their Requested Participation
Prior to interviewing each staff person, the auditor should communicate the following to him or her:

“Thank you for meeting with me. My name is [NAME]. I have been hired by the [NAME OF CORRECTION AGENCY] to conduct an assessment of whether or not this facility is in compliance with standards that have been established by the federal government to prevent sexual harassment and abuse. Although the [NAME OF CORRECTION AGENCY] hired me, I am an independent auditor and not under the authority of [NAME OF CORRECTION AGENCY]. I have been certified by the U.S. Department of Justice to conduct this assessment. I would like to ask you some questions about facility policies and practices. Your participation is voluntary, and you may choose not to answer any or all of the questions.”

“As a matter of professional conduct, I will do my very best to protect the confidentiality of the information that you provide to me. Under no circumstances can I be required to turn over my interview notes to the facility if they ask me for them. As I conduct my interviews, I will not be discussing what you tell me with any facility staff. However, you should be aware that if the U.S. Department of Justice wants to examine any of the information that I collect during this audit. I must provide it to them if they ask.

“You should also know that for the final report that I will give to the facility at the end of this audit, I am prohibited from including any personally identifying information of yours in it. The only way that my
report could include personally identifying information is if I make a mistake and include it, and I can assure you that I will not make such a mistake. If my final report ends up including personally identifying information by mistake, I have to provide it to the agency if they ask.

“If you experience any negative consequences for talking with me, such as retaliation or threatened retaliation, please do not hesitate to contact me. I can be reached at [THIS SHOULD BE THE SAME CONTACT INFORMATION PROVIDED IN ADVANCE OF THE AUDIT VISIT THAT SOLICITS INMATE COMMENTS].”

“Do I have your permission to ask you some questions?”

IF YES, CONTINUE WITH INTERVIEW GUIDE.
