Responding to Sexual Abuse of Youth in Custody: Addressing the Needs of Boys, Girls, and Gender Nonconforming Youth
Notification of Curriculum Use
April 2014

The enclosed Responding to Sexual Abuse of Youth in Custody: Addressing the Needs of Boys, Girls, and Gender Nonconforming Youth curriculum was developed by the Project on Addressing Prison Rape at American University, Washington College of Law as part of contract deliverables for the National PREA Resource Center (PRC), a cooperative agreement between the National Council on Crime and Delinquency (NCCD) and the Bureau of Justice Assistance (BJA). The Prison Rape Elimination Act (PREA) standards served as the basis for the curriculum’s content and development with the goal of the Responding to Sexual Abuse of Youth in Custody: Addressing the Needs of Boys, Girls, and Gender Nonconforming Youth curriculum being to satisfy specific PREA standard requirements.

It is recommended that the Responding to Sexual Abuse of Youth in Custody: Addressing the Needs of Boys, Girls, and Gender Nonconforming Youth curriculum be reviewed in its entirety before choosing which modules to use. Any alterations to the original materials require either acknowledgement during their presentation or removal of the PRC and Project on Addressing Prison Rape logos.

BJA is currently undergoing a comprehensive review of the enclosed curriculum for official approval, at which point the BJA logo may be added.

Note: Use of the enclosed curriculum, either in part or whole, does not guarantee that an auditor will find a facility “meets standards.” Rather, an auditor will take into consideration the curriculum used as part of their overall determination of compliance.

Objectives

• Review the Prison Rape Elimination Act of 2003 (PREA) and the final national standards.

• Identify why gender responsive strategies are important in responding to sexual abuse of youth.

• Develop ways to proceed in light of PREA.
What is PREA?

• Prison Rape Elimination Act (PREA).

• The aim of the Act is to create “zero tolerance” for prison rape by using a variety of tools.

• The initial version of PREA only sought to address male rape. In the initial congressional hearing, most of the survivors were male. Initial legislation failed to include sexual violence against women, which was more likely to be staff initiated.

• In its second iteration, PREA included staff sexual misconduct, but continued to focus heavily on male-on-male rape.

• PREA passed unanimously in both houses of Congress in 2003.
PREA Purposes

Increase **accountability** of prison officials who fail to detect, prevent, reduce and punish prison rape

**Protect** 8th amendment rights of federal, state and local prisoners

Establish **grant** programs

**Reduce costs** of prison rape on interstate commerce
PREA Purposes

Establish **zero tolerance**

Make **prevention** a top priority

Develop **national standards** for detection, prevention, reduction and punishment

**Increase** available **data** and **information** on **incidence** in order to improve management and administration

**Standardize definitions** used for collecting data on the incidence of rape in custody
Major Sections

Section 4: Collection of prison rape statistics, data and research (BJS)

Section 5: Prison Rape Prevention and Prosecution (NIC)

Section 6: Grants to Protect Inmates and Safeguard Communities (BJA)

Key Principles

PREA encompasses any federal confinement facility whether run by the government or a private organization on behalf of the government.

These standards are the floor - they are minimum standards.
- States can and are encouraged to do more, particularly if your state has set higher requirements.

Must protect the constitutional rights of those in custody.
What We Know

BJS DATA
and
NPREC FINDINGS
BJS Data

Administrative survey collections: Juveniles
2004 (reported with adult numbers)
2005-6

Victim self reports: Juveniles
2007
2012
More than 2,000 allegations of sexual violence reported each year in juvenile facilities

- The estimated total number of allegations for the nation was:
  - 2,047 in 2005 (16.7%)
  - 2,025 in 2006 (16.8%)

About 1 in 5 allegations of sexual violence were substantiated
BJS Findings: Sexual Victimization Reported by Youth, 2012

An estimated 9.5% of adjudicated youth in state juvenile facilities and state contract facilities reported experiencing one or more incidents of sexual victimization by another youth or staff in the past 12 months or since admission, if less than 12 months.

- About 2.5% of youth reported an incident involving another youth
- About 7.7% reported an incident involving facility staff

Youth who identified their sexual orientation as gay, lesbian, bisexual, or other reported a substantially higher rate of youth-on-youth victimization (10.3%) than heterosexual youth (1.5%).

Among youth who reported victimization by staff 89.1% were males reporting sexual activity with female staff and 3.0% were males reporting sexual activity with both male and female staff.
Thirteen facilities were identified as high-rate based on the prevalence of sexual victimization by youth or staff.

- Rates in each of these facilities had rates at least 35% higher than the average rate of sexual victimization among facilities nationwide.
- Two of the high-rate facilities had sexual victimization rates of 30% or greater.

14 facilities were identified as low-rate where less than half the average rate among all facilities listed in the survey.
In 2008, more than 209,400 persons were victims in prison, jails and juvenile facilities.

At least 78,500 prison and jail inmates and 4,300 youth in juvenile facilities were victims of the most serious forms of sexual abuse.

Charge:

• Conduct legal and factual study of the effects of prison rape in the US

• Recommend national standards
  o Consultation with accreditation organizations
  o Can’t impose something that would mandate substantial increased costs to agency
  o Hold hearings

• Issue report w/in 2 years of initial meeting
Findings

Protecting inmates from sexual abuse remains a challenge correctional facilities across the country.

Sexual abuse is not an inevitable feature of incarceration -- leadership matters.

Certain individuals are more at risk of sexual abuse than others.
Findings

Few correctional facilities are subject to the kind of rigorous internal monitoring and external oversight that would reveal why abuse occurs and how to prevent it.

Many victims cannot safely and easily report sexual abuse, and those who speak out often do so to no avail.

Victims are unlikely to receive the treatment and support known to minimize the trauma of abuse.
Findings

Juveniles in confinement are **much more likely** than incarcerated adults to be sexually abused, and they are particularly at risk when confined with adults.

Individuals under correctional supervision in the community are at risk for sexual abuse.

A large and growing number of detained immigrants are in danger of sexual abuse.
Adoption and Effect of National Standards

One year after National Prison Rape Elimination Commission issued report-- AG will publish its final rule with standards

- 90 days after publication -- transmission to state departments of correction
- FBOP immediately covered by rule
- Possible reduction of 5% each year for failure to meet the standard
- DOJ to publish annual report on non-compliance
Initial Agency Prep -- Before Final Standards

- Self assessments of current practices
- Training for staff
- Request for technical assistance
- Culture surveys and assessments
- Early adoption of NPREC draft standards
DOJ Standards

Differences -- DOJ standards and NPREC standards:
  • Immigration detention, probation and parole, cross gender supervision, consensual sex, audit and compliance

Final standards released **May 17, 2012**

Published in Federal Register **June 20, 2012**

Applicable **August 20, 2012**

(b) Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. In the event a disciplinary sanction results in the isolation of a resident, agencies shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.
(c) The disciplinary process shall consider whether a resident’s mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

(d) If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to offer the offending resident participation in such interventions. The agency may require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives, but not as a condition to access to general programming or education.
(e) The agency may discipline a resident for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

(f) For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
